

Project Valorous Floating Offshore Wind Farm

Notice to Mariners

NtM Number	Valorous/001 v8.0
Date of Issue	22/12/2021

1 Planned Activity

Floating LiDAR

Floating LiDAR System

An attempt to recover the capsized Floating LiDAR System (Valorous/001 v7.0), located within the proposed Valorous Floating Offshore Wind Farm (FLOW) project site, was unsuccessful. The capsized Floating LiDAR is still connected to the mooring system and remains in place at the location below.

- 51°20.659' N, 005°40.694' W

A further attempt to recover the Floating LiDAR System will take place as soon as possible and when it is safe to do so. A further NtM will be issued once details of the recovery attempt are known.

It is recommended that mariners continue to remain vigilant and make note of the capsized Floating LiDAR location.

Details of the device and relevant Aids to Navigation are provided below for information however please note that the communication system is still down and that the device is currently capsized.

Floating LiDAR
Yellow in colour
Yellow 'X' shaped topmark
Fl (5) Y 20s light (5nm range)
Flash rate not exceeding 30 per minute.
MMSI Number: 992351335

2 Geographic Co-ordinates (UTM 30 / WGS 84)

Confirmed position of the capsized Floating LiDAR Location

Degrees Decimal Minutes	51°20.659' N	005°40.694' W
Degrees Minutes Seconds	51°20'39.57" N	005°40'41.69" W

3 Safe Clearances, Navigation Safety Features and Safety Notes for Mariners

It is recommended that mariners remain vigilant of the capsized Floating LiDAR system and make note of its location.
